

JOYCEone. Made for you.

Forget about time-consuming adjustments. JOYCEone offers you a ventilation mask that almost always fits. It is the result of decades of mask expertise and is available as a nasal or full-face mask.

The perfect combination: Feeling of comfort and successful therapy

The forehead support with its flexible spring principle automatically ensures that it always sits firmly and comfortably on the forehead at the right distance for the particular therapy. The single-layer mask cushion works in an equally clever way. Thanks to its optimized shape it automatically finds the ideal position – irrespective of the nose or face size.

The advantages of JOYCEone

- Time-saving:
Automatic adjustment of forehead support **2** and mask cushion **1**
- Fool-proof assembly:
Clear color coding of headgear and headgear clips **4**
- Cost-effective: One size fits virtually all patients
- Convenient:
Easy to clean
- Pleasant:
Quiet and diffuse exhalation system **3**
- Hard-wearing: Extremely durable materials

Thought-out down to the smallest detail

Your patients will love JOYCEone from the moment they put it on! After all, JOYCEone not only stands out with its precise fit and wearing comfort, but also thanks to its ease of use: The unmistakable color coding of the headband and headgear clips with recessed grip makes JOYCEone quick and easy to put on correctly right from the start.

State-of-the-art efficiency

In a nutshell: The intelligent JOYCEone principle helps you make the best use of your time without having to compromise on patient care. **JOYCEone – made for you!**
